ABSTRACT

The National Household Education Survey (NHES) is a telephone interview survey that has been conducted in the spring of 1991, 1993, 1995, 1996, and 1999. The 1999 NHES was a compilation of survey items from previous years that included three interviews, resulting in three data files. The first is the Parent Interview, in which data were collected on a variety of topics, including early childhood program participation, types and frequency of family involvement in children's schooling, school practice to support and involve families, learning activities with children outside of school, and plans for children's postsecondary education. This manual provides documentation and guidance for users of the public release data file for the Parent Interview. It contains a description of the data file and a discussion of data considerations and anomalies. Included, as five appendixes (Appendixes C through G of the complete manual), are the public file layout, the Statistical Analysis System code for creating derived variables, crosswalks of items asked in the NHES:99 Parent Interview and previous NHES administrations, the code book for the file, and directions and code for linking data files. This volume is meant to be used in conjunction with Volume I, which contains more information about the purpose of the study and the sample design. (SLD)

The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to:

INTRODUCTION

The 1999 National Household Education Survey (NHES:1999) was a random digit dial (RDD) telephone survey of households in the United States developed by the National Center for Education Statistics (NCES) and conducted by Westat. The NHES:1999 was a compilation of key items from previous NHES survey years in addition to a few new items. The NHES:1999 included three interviews:

- The Parent Interview, in which data were collected on a variety of topics including early childhood program participation, types and frequency of family involvement in children's schooling, school practices to involve and support families, learning activities with children outside of school, and plans for their children's postsecondary education;
- The Youth Interview, in which children in 6th through 12th grades, whose parents had completed a Parent Interview, were asked about school and family environments, civic involvement and community service, and plans for postsecondary education; and
- The Adult Education Interview, in which data such as type of program, employer support, and degree sought were collected on characteristics of participation in six types of adult educational activities, including English as a second language, adult basic education, credential programs, apprenticeships, work-related courses, and personal development courses.

There were three populations of interest for the NHES:1999:

- Children birth through grade 12, whose parents completed the Parent Interview, which was structured according to the age and grade of their children;
- Students in grades 6 through 12, who completed the Youth Interview; and
- Adults, defined as persons 16 years old or older, not enrolled in grade 12 or below, and not on active duty in the military, whose responses to the Adult Education Interview provided estimates representative of all civilian U.S. adults.

The NHES:1999 Screener enumerated household members and collected demographic and educational information to determine eligibility for extended interviews. Data were collected from January through April 1999.

This manual, the *NHES:1999 Data File User's Manual, Volume II-Parent Interview Data File,* provides documentation and guidance for users of the public release data file for the Parent Interview of the 1999 National Household Education Survey (NHES:1999). This volume contains a description of the data file and a discussion of data considerations and anomalies. Included as appendixes are the public file layout, SAS code for creating derived variables, crosswalks of items asked in the NHES:1999 Parent Interview and previous NHES administrations, the codebook for the Parent Interview public data file, and directions and code for linking data files.

Volume II is meant to be read in conjunction with the NHES:*1999 Data File User's Manual, Volume I.* More information about the purpose of the study, the sample design, the other survey components, the data collection instruments, and data collection and data processing procedures is contained in the *NHES:1999 Data File User's Manual, Volume I.* Information about the Youth Interview public data file and the Adult Education Interview public data file can be found in Volumes III and IV of the manual, respectively.

6. GUIDE TO THE DATA FILE AND CODEBOOK

6.1 Content and Organization of the Data File

This section describes the content of the public release data file constructed for the NHES:1999 Parent Interview. This file contains data from all completed Parent Interviews. There is one record for each Parent Interview completed, and the file contains 24,600 cases. The file is organized so that logically related sets of variables are grouped together. The data items are listed in the file in the following order: system variables, household membership variables, questionnaire item variables, household characteristics variables, derived variables, weighting and variance estimation variables, and imputation flag variables.

A list of all the variables in the data file is shown in appendix C. The VARIABLE NAME column displays the unique identifier for each variable in the data file. The VARIABLE LABEL column displays a short description associated with the variable. The FORMAT column indicates if a variable has a numeric ("N") or a character ("C") format. All of the variables except MAINRSLT, PATH, GRADE, SLOW, SHIGH, GRADEEQ, and ALLGRADE in the Parent Interview file have numeric formats. The LENGTH column indicates the columns of data the variable takes up on the data file. The length descriptor also includes the number of digits found after the decimal point for noninteger numeric variables (e.g., weight variables). The position of the variable is indicated in the START and END column and indicates the position in the file where the variable begins and ends.

The value "-1" for any variable on the file indicates that a case was part of a legitimate skip. For example, if the child did not attend a church-related school (SRELGON), the question about whether the child's school was Catholic (SCATHLIC) would equal -1 because that question was not asked about children who did not attend church-related schools.

The NHES:1999 data files are provided on CD-ROM and are accessible through an Electronic CodeBook (ECB) that allows data users to view variable frequencies, tag variables for extraction, and create the SAS, SPSS for Windows, or STATA code needed to create an extract file for analysis purposes. The ECB contains all NHES:1999 data sets: the Parent Interview file, the Youth Interview file, and the Adult Education Interview file. Instructions for using the CD-ROM and ECB are provided in a separate document, the *National Household Education Survey Electronic CodeBook User's Guide* (Nolin et al., 2000). The sections that follow describe the contents of the Parent Interview public data file.

6.1.1 System Variables

System variables are created during the conduct of an interview and are instrumental in the successful administration of the interview. Their creation is transparent to the interviewer and to the respondent. System variables fall into two categories: linking variables (record identifiers or ID numbers) and interview status variables. Linking variables are record identifiers that provide a link to other interviews completed in the same household. (See appendix G for more information about linking between files.) Status variables are set at the completion of each interview to define completion status.

BASMID is the unique 12-digit identifier variable for the interview. It is composed of the eight-digit household identifier, the two-digit household member person number of the subject of the interview, and the two-digit number, 01, that indicates that the interview was a Parent Interview.

ENUMID is the 10-digit identifier variable for the subject of the interview. It is composed of the eight-digit household identifier and the two-digit household member person number of the subject of the interview. ENUMID can be used to link the Parent Interview to the Youth Interview about that youth and to an Adult Education Interview administered to a Parent Interview respondent. See appendix G for instructions in linking the Parent file and the other NHES:1999 data files.

BASEID is the eight-digit identifier for the household. This ID number forms the first eight digits of ID numbers for other interviews in the household, providing a means of linking interviews within the same household. See appendix G for instructions for linking the NHES:1999 data files.

MAINRSLT (main result) is the variable that holds the final completion code for the interview.

The values for MAINRSLT are:

CI = Complete Parent Interview; sampled child was an infant or toddler (age birth through 2)
CN = Complete Parent Interview; sampled child was a preschooler (age 3 through 6 and not enrolled in kindergarten through grade 12)
CE = Complete Parent Interview; sampled child was an elementary schooler (kindergarten through grade 5)
CM = Complete Parent Interview; sampled child was a middle/junior high schooler (grades 6 through 8)
CS = Complete Parent Interview; sampled child was a high schooler (grades 9 through 12)
CH = Complete Parent Interview; sampled child was a home schooler (ages 6 through 17)

PATH is the variable that designates classes of cases based on certain characteristics (e.g., age or grade) that drive similar skip patterns within the interview. Though PATH is essentially the same as MAINRSLT, because of its importance in navigating through the questionnaire it was included on the data file to help users match the data file against the questionnaire. For the Parent Interview there are six paths:

I = Complete Parent Interview; sampled child was an infant or toddler (age birth through 2)
N = Complete Parent Interview; sampled child was a preschooler (age 3 through 6 and not enrolled in kindergarten through grade 12)
E = Complete Parent Interview; sampled child was an elementary schooler (kindergarten through grade 5)
M = Complete Parent Interview; sampled child was a middle/junior high schooler (grades 6 through 8)
S = Complete Parent Interview; sampled child was a high schooler (grades 9 through 12)
H = Complete Parent Interview; sampled child was a home schooler (ages 6 through 17)

ENGLSPAN is the variable that indicates whether the interview was conducted in English or in Spanish.

The values for ENGLSPAN are:

1 = Interview was conducted in English
2 = Interview was conducted in Spanish

6.1.2 Household Membership Variables

All household members were enumerated in either the Screener or the Parent Interview. Data collected included age and sex (S6 or PA7), and relationship to the child (PA8). The sex information collected during the household enumeration was used to drive the sex-based wording of subsequent questions throughout the Parent Interview.

If the respondent relationship was recorded as mother or father, an additional question (PA9 or PA10) was asked to gather the specific relationship (birth, adoptive, step, or foster) of the mother and/or father living in the household to the subject child.

The household member information is stored on the public release data file in the following order: information about the subject of the interview (the sampled child), information about the interview respondent (the most knowledgeable parent/guardian), information about the mother, information about the father, and information on all other household members (other than the subject, the mother, and the father). Please note that the extended respondent information is repeated in one of two places. If the extended respondent is the mother or the father, information is contained in the respondent section and that information will be repeated in the mother or father section. If the extended respondent is not the mother or father, the information will be repeated in the section on other household members. The variables appear on the data file as follows:

CHILDNUM is the sampled child's household member person number.

AGE98 is the sampled child's age as of December 31, 1998.

SEX is the sampled child's sex.

CRACE indicates the sampled child's race.

COTHRACE indicates the sampled child's race if "some other race" was reported at CRACE

CHISPAN indicates whether the sampled youth is Hispanic.

RESPNUM is the extended interview respondent's household member person number.[1]

RESPAGE is the extended interview respondent's age.

RESPSEX is the extended interview respondent's sex.

[1] Each person in the household is enumerated and assigned a person number during the screening interview.

RESRELN is the extended interview respondent's relationship to the sampled youth.

MOMNUM is the household member person number of the sampled child's mother.

MOMAGE is the mother's age.

MOMTYPE is the type of mother (birth, adoptive, step, or foster).

DADNUM is the household member person number of the sampled child's father.

DADAGE is the father's age.

DADTYPE is the type of father (birth, adoptive, step, or foster).

AGE1 is the age of the oldest household member other than the sampled child and parents.

SEX1 is the sex of the oldest household member other than the sampled child and parents.

RELATN1 is the relationship to the child of the oldest household member other than the sampled child and parents.

AGE(*n*), **SEX(*n*)**, and **RELATN(*n*)** variables are then repeated for each other household member using sequential numbers, e.g., AGE2, SEX2, RELATN2, and so on up to a maximum of 13 other household members.

6.1.3 Questionnaire Item Variables

Most questionnaire item variables appear on the file in the same order as they were asked. An exception is the questions about nonparental care, asked in one part of the interview for preschool children and in another part for children enrolled in school and referring to before-and after-school arrangements. Refer to the questionnaire in Volume I, appendix A, for the order. The items on enrollment and grade in school appear in the Screener and the Parent Interview. The Parent Interview responses have been retained, since they are responses given by the parent/guardian most knowledgeable about the sampled child.

Some variables were excluded from the file for confidentiality reasons. These include the names of household members, verbatim string responses that might identify persons or places, and the individual ZIP Codes. Some of these variables are included in a separate restricted-use data file (see section 6.3 below). The Parent Interview questionnaire appears with the Screener, the Youth Interview, and the Adult Education Interview questionnaires in Volume I, appendix A; variable names are provided to the left of each question. Those followed by "/R" appear only on a restricted-use data file that may be obtained through a special licensing agreement with NCES. To learn more about getting a license, go to the NCES Web site at http://nces.ed.gov/pubsearch/licenses.asp. (A cross-reference of the NHES:1999 questionnaire variables with those of previous NHES surveys is provided in appendix E.)

"Code all that apply" questions allowed the respondent to select more than one of the answer categories given. As the responses were given, the interviewer coded the number appearing on the screen that corresponded to each response given. The numbered responses were recoded into one variable for each response category as "yes/no" codes. If the respondent gave the particular response, the

associated variable was coded "yes." Otherwise, the associated variable was coded "no." There are four "code all that apply" questions in the Parent Interview: "What are the main reasons you decided to school (CHILD) at home?" (PC6)," "What grade or grades did (he/she) repeat?" (PL6), "What (have you/has she) been doing in the past 4 weeks to find work?" (PU12), and "What (have you/has he) been doing in the past 4 weeks to find work?" (PV10).

In rare cases, a response category for a variable was not selected by any respondent (e.g., for the variable, GRADEEQ, no respondent selected "P," prefirst grade after kindergarten). In those instances, the response category does not appear on the data file, although it is listed on the questionnaire.

6.1.4 Household Characteristics Variables

Household characteristics variables are variables that reflect characteristics of the household as a unit. These questions were asked at the end of the first Parent Interview in the household. For example, questions were asked about whether the home was owned or rented (HOWNHOME), and whether the family received food stamps in the past 12 months (HFOODST). These household items appear on the file in the same order as they were asked.

6.1.5 Derived Variables

Derived variables were developed and included in the public use data file to aid users in their analyses. The derived variables fall into three categories: questionnaire item variables, counter variables, and variables linked to other data sources. Questionnaire item-derived variables were created by combining two or more items from the questionnaire. Counter-derived variables were created by counting the number of persons enumerated in the household with specific characteristics. Linked-derived variables were created by using the respondent's ZIP Code to extract data from the 1990 Census of Population Summary Tape File 3B (STF3B).

The derived variables appear together on the file in their own section in alphabetical order. They are listed below in the same order with an explanation of how they were derived. The actual SAS code to create these variables is found in appendix D with the exception of counter variables and CENREG (Census region). All unique NHES:1999 ZIP Codes were matched to ZIP Codes on the STF3B to extract urbanicity, the percent of black or Hispanic residents, and the percent of persons under age 18 living in poverty.

ALLGRADE is a composite variable that identifies the enrollment status, the grade level of children in graded schools, and the grade level equivalent for children in ungraded schools, special education programs, or home school. ALLGRADE was created using the variables GRADE (PB6) and GRADEEQ (PB7).

The values for ALLGRADE are:

0 = Not enrolled
N = Nursery/preschool/prekindergarten/Head Start
K = Transitional kindergarten, kindergarten, and prefirst grade
1 = First grade or equivalent
2 = Second grade or equivalent
3 = Third grade or equivalent
4 = Fourth grade or equivalent
5 = Fifth grade or equivalent
6 = Sixth grade or equivalent
7 = Seventh grade or equivalent
8 = Eighth grade or equivalent
9 = Ninth grade or equivalent
10 = Tenth grade or equivalent
11 = Eleventh grade or equivalent
12 = Twelfth grade or equivalent
U = Ungraded/no equivalent

ANYCARE indicates whether the child currently participates in any nonparental care or program arrangements. ANYCARE is a composite variable created using the variables RCNOW (PF1 or PN1), NCNOW (PG1 or PO1), HSNOW (PH1), CPNNOW (PI1), and CPSNOW (PP1).

The values for ANYCARE are:

1 = Currently participates in any care or program arrangement
2 = Does not currently participate in any care or program arrangement
-1 = High school student or home schooled

CENREG is a composite variable that identifies the Census region in which the sampled child lives. This variable is created by grouping states. The following states and the District of Columbia are in each Census region:

Northeast: CT, MA, ME, NH, NJ, NY, PA, RI, VT
South: AL, AR, DC, DE, FL, GA, KY, LA, MD, MS, NC, OK, SC, TN, TX, VA, WV
Midwest: IA, IL, IN, KS, MI, MN, MO, ND, NE, OH, SD, WI
West: AK, AZ, CA, CO, HI, ID, MT, NV, NM, OR, UT, WA, WY

The values for CENREG are:

1 = Northeast
2 = South
3 = Midwest
4 = West

DADEMPLD is the composite variable that indicates the employment status of the father (birth/adoptive/step/foster/guardian). DADEMPLD was created using the variables DADWORK (PV6), DADLEAVE (PV7), DADHOURS (PV8), DADLOOK (PV9), and DADPUBL, DADPRIV, DADEMPL, DADREL, DADANSAD (all from PV10).

The values for DADEMPLD are:

1 = Working 35 hours or more per week
2 = Working less than 35 hours per week
3 = Looking for work
4 = Not in the labor force
-1 = No father for the subject child in the household

DISABLTY indicates whether the sampled child has a disability. It is a composite variable created using the variables MAINRSLT, HDDEAFIM, HDBLNDIM, HDORTHO, HDDEVEL, HDOTHER, HDLEARN, HDRETARD, HDSPEECH, HDDISTRB (all from PT5 and PT6).

The values for DISABLTY are:

1 = Currently has a disability
2 = Does not currently have a disability

FAMILY is the composite variable that describes the family type, based on the presence of parents and siblings. FAMILY was created using the derived variables HHPARN1 and NUMSIBS.

The values for FAMILY are:

1 = Two parents and siblings
2 = Two parents and no siblings
3 = One parent and siblings
4 = One parent and no siblings
5 = Other

HH18OVER is the counter-derived variable that indicates the number of household members age 18 and older, including the sampled child. The responses collected at S6 and PA7 were counted for this variable.

HHDAD is the composite variable that indicates whether a birth, adoptive, step, or foster father of the subject child resides in the household with him/her. HHDAD was created using the variables DADTYPE (PA10), MOMTYPE (PA9), and RESPSEX (S11).

The values for HHDAD are:

1 = Birth or adoptive father
2 = Step or foster father
3 = Male respondent/no mother or father in household
4 = Someone else

HHMOM is the composite variable that indicates whether a birth, adoptive, step, or foster mother of the subject child resides in the household with him/her. HHMOM was created using the variables MOMTYPE (PA9), DADTYPE (PA10), and RESPSEX (S11).

The values for HHMOM are:

1 = Birth or adoptive mother
2 = Step or foster mother
3 = Female respondent/no mother or father in household
4 = Someone else

HHPARN1 is the composite variable that designates by broad classification the subject child's parents who reside in the household. It denotes a two-parent family, a one-parent family, or a family with nonparent guardians. HHPARN1 was created using the derived variables HHMOM and HHDAD.

The values for HHPARN1 are:

1 = Mother (birth, adoptive, step, or foster) and father (birth, adoptive, step, or foster)
2 = Mother (birth, adoptive, step, or foster) only
3 = Father (birth, adoptive, step, or foster) only
4 = Nonparent guardian(s)

HHTOTAL is the counter-derived variable that indicates the total number of people living in the household.

HHUNDR6 is the counter-derived variable that indicates the total number of household members younger than 6 years old, including the sampled child. The responses collected at S6 and PA7 were counted for this variable.

HHUNDR13 is the counter-derived variable that indicates the total number of household members younger than 13 years old, including the sampled child. The responses collected at S6 and PA7 were counted for this variable.

HHUNDR18 is the counter-derived variable that indicates the total number of household members younger than 18 years old, including the sampled child. The responses collected at S6 and PA7 were counted for this variable.

HHUNDR21 is a counter-derived variable that indicates the number of household members who are 20 years old or younger, including the sampled child. The responses collected at S6 and PA7 were counted for this variable.

LANGUAGE is the composite variable that describes whether the language spoken most often at home by the parent(s)/guardian(s) in the household is English. LANGUAGE was created using the variables MOMLANG (PU2), MOMSPEAK (PU3), DADLANG (PV1), and DADSPEAK (PV2).

The values for LANGUAGE are:

1 = Both/only parent(s)/main language at home is English
2 = One of two parents speaks a non-English language most at home
3 = Both/only parent(s) speak a non-English language most at home

MOMEMPLD is the composite variable that indicates the employment status of the mother (birth/adoptive/step/foster/guardian). MOMEMPLD was created using the variables MOMWORK (PU7), MOMLEAVE (PU8), MOMHOURS (PU9), MOMLOOK (PU11), and MOMPUBL, MOMPRIV, MOMEMPL, MOMREL, and MOMANSAD (all from PU12).

The values for MOMEMPLD are:

1 = Working 35 hours or more per week
2 = Working less than 35 hours per week
3 = Looking for work
4 = Not in the labor force
-1 = No mother in household

MOMFTFY is the composite variable that indicates if the mother (birth/adoptive/step/foster/guardian) of the subject child currently works full time and has worked 12 months of the past year. MOMFTFY was created from the variables MOMWORK (PU7), MOMMTHS (PU10), and the derived variable MOMEMPLD.

The values for MOMFTFY are:

1 = Full time (35 hours or more per week) full year
2 = Less than full time or less than full year
3 = Not employed during year
-1 = No mother in household

NUMSIBS is a counter variable that indicates the total number of siblings with whom the sampled child lives. The responses to RELATION (PA8) were counted for this variable.

PARGRADE is the composite variable that indicates the highest level of education for the subject child's parents or nonparent guardians who reside in the household. PARGRADE was created using the variables MOMGRADE (PU5), MOMDIPL (PU6), DADGRADE (PV4), and DADDIPL (PV5).

The values for PARGRADE are:

1 = Less than high school diploma
2 = High school diploma or its equivalent
3 = Voc/tech degree or some college
4 = Bachelor's degree
5 = Graduate/professional school

RACEETHN denotes both the race and ethnicity of the subject child. If the respondent to the Parent Interview designates the child's ethnicity as Hispanic, RACEETHN is Hispanic regardless of whether RACE was classified as white, black, or another race. RACEETHN was created using the variables CRACE (PA3), COTHRACE (PA3OV), and CHISPAN (PA4).

The values for RACEETHN are:

1 = White, non-Hispanic
2 = Black, non-Hispanic
3 = Hispanic
4 = All other races (e.g., American Indian or Alaska Native, Asian or Pacific Islander), non-Hispanic

SCHLGRAD is a composite variable that categorizes the level of child's school. It was created using the variables SLOW (PD6) and SHIGH (PD7). Note that although this variable also appears on the Youth Interview file, the values are not the same in both files.

The values for SCHLGRAD are:

1 = Preschool/kindergarten
2 = Elementary school
3 = Middle/junior high school
4 = High school
5 = Combined grades school
-1 = Home schooled or not enrolled

SCHLTYPE is a composite variable that classifies the school currently attended as either public or private. Schools that are public are further classified as being chosen or assigned, and schools that are private are also classified as being church-related or not church-related. SCHLTYPE was created using the variables SPUBLIC (PD1), SCHOICE (PD2), and SRELGON (PD4).

The values for SCHLTYPE are:

1 = Public, assigned
2 = Public, chosen
3 = Private, church-related
4 = Private, not church-related
-1 = Home schooled or not enrolled

SCNUMSTU is a composite variable that classifies the estimated number of students in the sampled child's school. SCNUMSTU was created using the variables SLOW (PD6), SHIGH (PD7), SNUMSTUD (PD8), and SNUMGRAD (PD80V).

The values for SCNUMSTU are:

1 = Under 300
2 = 300–599
3 = 600–999
4 = 1,000 or more
-1 = Home schooled or not enrolled

ZIP18PO2 is a linked-derived variable that categorizes the percent of families with children under age 18 in the subject's ZIP Code who were below the 1989 poverty line in 1990.

The values for ZIP18PO2 are:

1 = Less than 5 percent
2 = 5–9 percent
3 = 10–19 percent
4 = 20 percent or more

ZIPBLHI2 is a linked-derived variable that categorizes the percent of persons in the subject's ZIP Code who were black or Hispanic in 1990.

The values for ZIPBLHI2 are:

1 = Less than 6 percent
2 = 6–15 percent
3 = 16–40 percent
4 = 41 percent or more

ZIPURBAN is a linked-derived variable that categorizes the subject's ZIP Code as urban or rural in 1990. The definitions for these categories are taken directly from the 1990 Census of Population. An urban area (UA) comprises a place and the adjacent densely settled surrounding territory that together have a minimum population of 50,000 people. The term "place" in the UA definition includes both incorporated places, such as cities and villages, and Census-designated places (unincorporated population clusters for which the Census Bureau delineated boundaries in cooperation with state and local agencies to permit tabulation of data for Census Bureau products). The "densely settled surrounding territory" adjacent to the place consists of contiguous and noncontiguous territory of relatively high population density within short distances. The specific density and distance requirements are defined in the *Federal Register*, Vol. 55, No. 204.

The second category is urban, outside of UA. This category includes incorporated or unincorporated places outside of a UA with a minimum population of 2,500 people. One exception is for those who live in extended cities.[2] Persons living in rural portions of extended cities are classified as rural rather than urban. Places not classified as urban are rural.

Since a ZIP Code can cut across geographic areas that are classified in any of the three categories, the ZIPURBAN variable is classified into the category that has the largest number of persons. For example, if a ZIP Code has 5,000 persons in the first category (urban, inside UA), 0 persons in the second category (urban, outside UA), and 1,200 persons in the third category (rural), it is classified as inside UA.

[2] An extended city is either an incorporated place of any population size inside a UA, or an incorporated place with a population of 2,500 or more people outside a UA that contains one or more component rural areas. Each component rural area must have a population density of less than 100 people per square mile, consist of at least one entire Census block, and include at least 5 square miles of continuous area. An extended city can have both urban and rural population and land areas.

The values for ZIPURBAN are:

1 = Urban, inside UA
2 = Urban, outside UA
3 = Rural

6.1.6 Weighting and Variance Estimation Variables

The first variable in this section of the file is FPWT. It is the variable that should be used as the weight variable to estimate the characteristics of children. This weight contains all of the adjustments for the probabilities of selection, nonresponse, and undercoverage as described in Volume I, chapter 3 of this manual.

The 80 replicate weights, FPWT1 to FPWT80, are the next variables in this section. These replicate weights can be used with the WesVar program to produce estimates of the sampling errors of the estimates. More details on how the replicate weights were created and how they can be used with WesVar are given in Volume I, chapter 3, along with an approximation method that does not involve using the WesVar procedure.

The remaining two variables in this section are PPSU and PSTRATUM. These variables are provided to enable users to compute sampling errors using Taylor Series approximations, such as the SUDAAN procedure (Shah et al. 1995). The methods used to construct the values for PPSU and PSTRATUM are also discussed in Volume I, chapter 3.

6.1.7 Imputation Flag Variables

Item nonresponse occurred when some, but not all, of the responses were missing from an otherwise cooperating respondent. For all the items on the Parent Interview public use file, the missing data were imputed, or "filled in," to help users of the data. For each variable involved in imputation, an imputation flag variable was created. If there is no imputation flag, then no imputation was performed on that variable. This flag can be used to identify imputed values. Volume I, section 3.8 discusses the meaning of values assigned to the imputation flags.

The naming convention for the imputation flag variables was to drop the last letter of the variable name and replace it with an "F." For example, the imputation flag for SEX is SEF. This naming convention holds true for all Parent Interview variables except for variables that originally end in "F," variables that will become confused with other variables when the last letter is dropped, or variables that end in a number. In these cases, the letter before the last digit is dropped and replaced with an "F." For example, the imputation flag for AGE4 (PA7) is AGF4. The imputation flags appear on the file in the same order as the variables to which they refer.

6.1.8 Numeric and Character Variables

All of the variables in the Parent Interview file except MAINRSLT, PATH, SLOW, SHIGH, GRADE, GRADEEQ, and ALLGRADE have numeric formats.

6.2 Guide to the Codebook

The codebook, shown in appendix F, contains complete descriptions of the contents of the data file. The codebook contains system variables, household membership variables, questionnaire variables, household characteristic variables, derived variables, weighting and variance estimation variables, and imputation flag variables. The codebook provides all the pertinent information for the variables in the file, including the variable name, the question wording, the position and format of the variable in the file, and the responses to the item. The unweighted frequency, unweighted percent, weighted frequency, and weighted percent are provided with each response. Figure 6-1 provides a description of each of the items appearing in the codebook.

6.3 Public and Restricted Data Files

This manual is designed to assist users of the public use Parent Interview data file. The public use file contains all the variables detailed above but does not contain certain variables excluded from the file for confidentiality reasons. These include the names of household members, verbatim string responses that might identify persons, and respondents' individual ZIP Codes (HZIPCODE). Some of these variables (e.g., verbatim strings of other-specify categories, HZIPCODE) that are excluded from the public file are included on a separate restricted-use file. These variables are indicated with "/R" on the Parent Interview questionnaire in Volume I, appendix A. The restricted data file also contains close to 100 ZIP Code variables from the 1990 Census of Population Summary Tape File 3B (STF3B), including the median household income of the area, the level of community mobility in the area, and the percentage of owner-occupied households in the area. The restricted data file may be obtained through a special licensing agreement with NCES. To learn more about getting a license, go to the NCES Web site at http://nces.ed.gov/pubsearch/licenses.asp.

6.4 Linking the Parent Interview to Other NHES:1999 Data Files

It is possible to link the Parent, Youth, and Adult Education Interview data files. Instructions for doing so are presented in appendix G.

Figure 6-1.—Example of the codebook format

(1) PL5 – Since starting kindergarten, has (CHILD) repeated any grades?
(2) Variable Name : SEREPEAT PL5 – CHILD HAS REPEATED A GRADE
(3) Record Number : 1
(4) Position : 468-469
(5) Format : N2.
(6) Comment : Previous NHES Surveys: 1996, SEREPEAT; 1995, PREPEAT; 1993 SR, RREPT;

(7) Response	(8) Codes	(9) Frequency	(10) Percent	(11) Weighted Frequency	(12) Weighted Percent
1 YES	1	1,732	7.0	5,596,755	10.9%
2 NO	2	15,668	63.7	45,627,764	89.1%
RESERVED CODE : -1 INAPPLICABLE	-1	7,200	29.3	21,023,723	
		24,600	100.0	72,248,242	100.0%

DESCRIPTIONS:

(1) Questionnaire number and question wording: This is the exact question wording as it appeared in the questionnaire.

(2) Variable Name: This is the variable name associated with each item. It is the unique identifier present in the SAS, SPSS, or STATA data file. The variable name is followed by a short label, which is associated with each of the variables. This label also appears in the SAS, SPSS, or STATA data file. Labels contain the questionnaire item numbers. Labels that begin with the letter "D" indicate a derived variable.

(3) Record: Record number gives the record on which the variable is located.

(4) Position: This provides the starting and ending position of the variable in the raw data file.

(5) Format: This provides the variable type, its width, and the number of positions after the decimal point, if necessary. A data type of "N" represents numeric variables and "C" represents character variables. In this example, SEREPEAT is a numeric variable with a length of 2 and no decimals.

(6) Comment: Reference to the variable names for the same question asked in previous NHES surveys is given in comments.

(7) Response: This column provides the response categories for the variable.

(8) Codes: This column provides the actual numeric/character codes present in the data files.

(9) Frequency: This column displays the unweighted frequency counts for this variable. The counts for missing values are also included for the unweighted values.

(10) Percent: This column displays the unweighted frequency counts from the previous column as percentages. This column also contains percentages for missing values.

(11) Weighted Frequency: This column displays the frequency counts weighted up to the population.

(12) Weighted Percent: This column displays the percentages of frequency counts weighted up to the population. This column does not include percentages for missing values.

7. DATA CONSIDERATIONS AND ANOMALIES

The purpose of this section is to bring to the user's attention certain data considerations and data anomalies in the NHES:1999 Parent Interview data, to describe the nature of those anomalies, and, where appropriate, to identify possible means of taking them into account when analyzing the data.

7.1 Number of Students in Child's Grade

For the variable SNUMGRAD (PD8OV – number of students in the child's grade), there were five parents who reported 2,000 to 3,000 students in their child's grade. Although these numbers are not plausible, they were reported by the parent respondents and thus were left on the data file.

7.2 Number of Children Being Home Schooled

Parents of children between the ages of 5 and 17 years were asked if their children were being schooled at home, rather than being sent to school (PB2). Although 301 parents responded that their children were schooled at home, only 285 of those were assigned to the home school path of the interview. This was because 16 parents subsequently indicated that their children's grade equivalent was "N", nursery or preschool (PB7). Children with a grade equivalent of "N" were not considered to be home schooled, so those 16 cases were assigned to the preschool path of the interview. (Some of these cases had HOMSCHFLG set as well, indicating they also attended regular school 9 or more hours a week.)

7.3 Correspondence Between Age and Grade

In any survey in which information on people's ages and grades in school (or grade equivalents) is obtained, some cases appear in which age and grade do not seem to correspond. This is true for each year of the NHES, the CPS October Educational Supplement, and other surveys. In many cases in the NHES, the situations behind these discrepancies are unclear—we do know that interviewers were prompted by the CATI system to confirm apparent discrepencies and in some cases, interviewers provided more complete explanations. In some cases, interviewers provide more complete explanations. For example, a person may be in a grade far lower than his/her age would indicate, but may be retarded and in a special education program with a low grade equivalent. Some adults long past the modal age of high school completion may report a secondary grade because they are enrolled in adult nighttime high school. Analysts may wish to examine these unusual cases and make their own decisions about how to treat these cases in their analyses.

7.4 Nonparental Care

In the NHES:1999 Parent Interview, questions about nonparental care appear in two places. One section addresses nonparental care for preschool children (ages 0 through 6, not yet enrolled in kindergarten) and the other for children in elementary and middle school (K through grade 8). One question, whether the child currently attends a center-based program, is worded slightly differently for preschool and school age children. Each item has a different variable name, CPNNOW for preschool age children and CPSNOW for school age children. Followup questions that are asked of both sets of children have the same variable names. Users interested in center-based participation for children age 0 through 8th grade need to include both CPNNOW and CPSNOW in their analysis.

7.5 Time Spent Reading Each Session

Parents who indicated that a family member read to their children some days or every day in the past week were asked how many minutes on each of the days was the child read to. The data base allowed up to two digits for recording the number of minutes. Less than 2 percent of parents said their children were read to for more than 60 minutes, including .7 percent who indicated that their child was read to for 99 minutes. It is assumed that interviewers coded the response of 99 minutes for a response of number of minutes that exceeded two digits as well as for the specific response of 99 minutes.

7.6 Postsecondary Education

Parents of students who were home schooled and had a grade equivalent of 6 through 12 were asked questions about plans for postsecondary education (in section PR of the questionnaire), as were parents of students enrolled in grades 6 through 12. However, due to error in the skip instruction for question PR16 and PR17, parents of home schoolers in grades 9 through 12 who had heard about the Lifetime Learning tax credit and the HOPE scholarship tax credit were not asked about intended use of these credits to help pay for their children's education, though parents of other students enrolled in grades 9 through 12 were.

7.7 Parent/Guardian Characteristics

Information is collected on parent/guardian characteristics in section PU and PV of the Parent Interview. The mother items are asked when there is a mother (birth, adoptive, step, or foster) in the household or when there is no mother in the household and a female responds to the extended interview. In the latter case, the "mother" information pertains to the female respondent. The situation with the father items is the same. However, there was one case in which the child's grandmother was selected as the most knowledgeable respondent in the household, but the mother, who is not a household member, actually completed the interview. In that one case, the information in the mother items in section PU refers to someone who is not a household member.

7.8 Income to the Nearest Thousand Dollars

In those households whose income category and household size indicated that they may be at or below the poverty line, household income to the nearest thousand dollars was requested. As the

values in the data file show, some respondents did not answer in thousands, but gave somewhat more specific answers. Rather than lose this information, the exact response was retained.

APPENDIX E

CROSS-REFERENCE OF NHES:1999 VARIABLES WITH VARIABLES FROM PREVIOUS NHES ADMINISTRATIONS

CROSS-REFERENCE OF NHES:1999 WITH PREVIOUS NHES SURVEYS

The NHES:1999 contains many items that were administered in the previous NHES surveys. To aid data users who are interested in analysis of data from multiple survey years, a cross-reference of variables from the NHES:1999 and those of other survey years is given in this section. The information is presented in two ways. First, a guide to the cross-reference provides a quick overview by indicating which items are available for multiple years. The detailed cross-reference that follows gives the name of the variable and the questionnaire item number for each survey in which the item was administered.

Table E-1.—Parent Interview Cross-Reference Guide

Variable Description	Item Administered in Previous Surveys				
1999	1996 PFI/CI[1]	1995 ECPP[2]	1993 SR[3]	1993 SS&D[4]	1991 ECE[5]
Demographic Characteristics					
Month of birth	√	√	√	√	√
Year of birth	√	√	√	√	√
Child's age	√	√	√	√	√
Child's race	√	√	√	√	√
Child's sex	√	√	√	√	√
Child is Hispanic or mixed race	√				
Child is of Hispanic origin	√	√	√	√	√
Child's birth country	√				
Age when child moved to U.S.					
Language child speaks most at home	√	√			
Mother's age	√	√			
Father's age	√	√			
Other household members' age	√	√			
Other household members' sex	√	√			
Other household members' relationship to child	√	√	√		√
Mother's specific relationship to child	√	√	√		
Father's specific relationship to child	√	√	√		
Current School Status					
Child enrolled in school	√	√		√	√
Child schooled at home	√	√	√	√	√
Child schooled at home instead of at school					
Child getting all or some instruction from home					
Hours each week child goes to school for instruction					
Grade or year child attending	√	√	√	√	√
Grade or year equivalent if child was attending	√	√	√	√	√
Center-Based Program Participation					
Child attended kindergarten before		√	√		
Child attended home school kindergarten					
Child ever attended Head Start			√		√
Child ever attended nursery school			√		√
Home school nursery, prekindergarten, preschool					
Home Schooling					
Home school- for religious reasons	√				
Home school- for better education	√				
Home school- object to what schools teach	√				
Home school- poor learning environment	√

Variable Description	Item Administered in Previous Surveys				
1999	1996 PFI/CI[1]	1995 ECPP[2]	1993 SR[3]	1993 SS&D[4]	1991 ECE[5]
Home school- no challenge for child at school	√				
Home school- can't afford private school	√				
Home school- couldn't get into desired school	√				
Home school- child has temporary illness	√				
Home school- child has special need/disability	√				
Home school- parent's career	√				
Home school- child not old enough for grade school	√				
Home school- student behavioral problems	√				
Home school- to develop character/morality	√				
Home school- problem with public/private school	√				
Home school- other family reasons	√				
Home school- transportation/distance/convenience	√				
Home school- other reasons	√				
Public school support- offer detailed curriculum					
Public school support- offer book materials					
Public school support- offer place with info parents					
Pub school support- web site home sch parents					
Pub school support- place home school kids meet					
Pub school support- web site for home sch students					
Pub school support- chance child participate sports					
Used public school support curricula					
Used public school support books or materials					
Used public school support place for parents					
Used public school support web site for parents					
Used public school support place for students					
Used public school support web site for students					
Used public school support participation in sports					
Public school offers child chance attend certain class					
Any of child's home instruction by public teacher					
School Characteristics					
Child attends public or private school	√	√	√	√	√
School assigned or chosen	√	√	√	√	
School in assigned school district					
Child attends church-related school	√	√	√	√	√
Child attends Catholic school	√	√			
Lowest grade taught at child's school	√			√	
Highest grade taught at child's school	√			√	
Number of students at child's school	√			√	
Number of students in child's grade	√			√	
Child 1 goes to same school as Child 2	√

Variable Description	Item Administered in Previous Surveys				
1999	1996 PFI/CI[1]	1995 ECPP[2]	1993 SR[3]	1993 SS&D[4]	1991 ECE[5]
Emerging Literacy and Numeracy					
Child identifies colors red, yellow, blue, green			√		
Child recognizes letters			√		
How high child counts			√		
Child writes his or her first name			√		
Child reads story books		√	√		
Child actually reads the words			√		
Child ever looks at story book and pretends to read			√		
When pretend to read, sounds like connected story			√		
Early Childhood Care and Programs					
Receives care from a relative		√			√
Number of other relative care arrangements		√			
Relative who cares for child		√			
Location of relative care		√			√
Relative care schedule at least once each week		√			
Days per week receives relative care		√			
Hours per week receives relative care		√			√
Number of children cared for by relative		√			
Number of adults giving relative care		√			
Any fee charged by relative for child care		√			
Amount household pays relative for child care		√			
Unit of time relative care cost		√			
Cost of relative care child only or other children		√			
Number of children this amount covers		√			
Receives care from a nonrelative		√			√
Number of other nonrelative care arrangements		√			
Location of nonrelative care		√			√
Nonrelative care at least once per week		√			
Days per week receives nonrelative care		√			
Hours per week receives nonrelative care		√			√
Number of children cared for by nonrelative		√			
Number of adults giving nonrelative care		√			
Any fee charged by nonrelative for child care		√			
Amount for nonrelative care		√			
Unit of time nonrelative cost		√			
Cost of nonrelative for child only or other children		√			
Number of children amount covers		√

1999	1996 PFI/CI[1]	1995 ECPP[2]	1993 SR[3]	1993 SS&D[4]	1991 ECE[5]
Child attending Head Start	√	√	√		√
Location of Head Start program		√			√
Head Start located at workplace		√			
Head Start regular schedule- at least once per week		√			
Days per week attends Head Start		√	√		√
Hours per week attends Head Start	√	√	√		√
Number of children in same group at Head Start		√	√		√
Number of adults in same group at Head Start		√	√		√
Any fee for Head Start program		√			
Amount household pays for Head Start		√			
Unit of time for Head Start cost		√			
Cost for Head Start child only or include other kids		√			
Number of children amount covers		√			
Attends center-based program	√	√			√
More center-based arrangements	√	√			√
Program where child spends the most time	√				√
Location/center-based program		√			
Program located at workplace		√			
Program regular schedule at least once per week		√			
Days per week attends center-based program		√	√		√
Hours per week attends center-based program		√	√		√
Number of children in same group at program		√	√		√
Number of adults in same group at program		√	√		√
Fee for center-based program		√			
Amount for center-based program		√			
Unit/time program cost		√			
Cost for child only or other children in household		√			
Number of children amount covers		√			
Training & Support for Families of Preschoolers					
Attended support group for parents	√				
Attended parenting class	√				
Gone to family support center	√				
Had more than one home visit	√

Variable Description	Item Administered in Previous Surveys				
1999	1996 PFI/CI[1]	1995 ECPP[2]	1993 SR[3]	1993 SS&D[4]	1991 ECE[5]
Parent Satisfaction with School					
Parent is satisfied with school				√	
Parent is satisfied with teachers				√	
Parent is satisfied with academic standards				√	
Parent is satisfied with order and discipline				√	
Student Academic Performance and Behavior					
Child's grades across all subjects	√				
Rating of child's school work	√	√	√	√	√
Teacher contacted family regarding behavior	√	√		√	√
Teacher contacted household re school work	√	√		√	√
Child has repeated a grade	√	√	√	√	
Grade child repeated	√	√	√		
Child ever suspended or expelled from school	√			√	
Child had in school suspension	√				
Child was expelled from school	√				
Suspension in-school or out-of-school					
Family/School Involvement & School Practices					
Household adult attended general school meeting	√			√	
Adult who attended general school meeting	√				
Household adult attended meeting with teacher	√				√
Adult who attended teacher meeting	√				
Household adult attended class event	√			√	
Adult who attended class event	√				
Household adult volunteered at school	√			√	
Adult who volunteered at school	√				
School had general meeting this school year	√				
School had teacher meeting	√				
How often went to school meetings/events	√				
School tells family how child is doing	√				
School helps family understand child development	√				
School tells about chances to volunteer	√				
School advises about home learning	√				
School gives info about community services	√				
School puts parents on committees	√				
Before/After School Care and Activities					
Relative care before or after school		√			
Number of hours with relative care before school					

Table E-1.—Parent Interview Cross-Reference Guide—Continued

Variable Description	Item Administered in Previous Surveys				
1999	1996 PFI/CI[1]	1995 ECPP[2]	1993 SR[3]	1993 SS&D[4]	1991 ECE[5]
Number of hours with relative care after school					
Nonrelative care before or after school		√			
Hours nonrelative care received before school					
Hours of nonrelative care received after school					
Attends center-based program		√			
Same place attends kindergarten or grade		√			
Attends program before or after school		√			
Hours at center-based before school					
Hours at center-based after school					
Sometimes parents arrange for activities					
He/she participates in activities					
Days per week child participates in activity					
Hours per week child participates in activity					
Cares for self on a regular basis		√			
Child cares for self before/after school					
Child cares for self once each week		√			
Days per week child cares for self		√			
Hours per week child cares for self		√			
Hours per week child cares for self before school					
Hours per week child cares for self after school					
Mom or dad home when child gets home from school					
Plans for Postsecondary Education					
Child will attend school after high school	√			√	
Child will graduate from a 4-year college	√			√	
Child start college education in a 2- or 4-year school					
Child like to attend private or public school					
Child like to attend in or out of state college					
Got information about tuition for specific college					
Cost of 1 year tuition at 4-year college					
Tuition of 4-year include other fees					
Estimated 1 year tuition at 4-year college					
Estimate of cost tuition of 4-year college					
Estimate tuition 4-year college include other fees					
Estimate tuition at in state 4-year college					
Estimate tuition at in state 4-year college					
Estimated tuition in state college include other fees					
Will attend vocational/technical/comm or jr college

1999	1996 PFI/CI[1]	1995 ECPP[2]	1993 SR[3]	1993 SS&D[4]	1991 ECE[5]
Got information about tuition of voc/tech school					
Tuition cost for vocational/technical/junior college					
Tuition for vocational/technical include other fee					
Estimate cost of tuition vocational/technical school					
Estimate cost of tuition vocational/technical school					
Estimate tuition vocational/technical include other fee					
Estimate cost of tuition vocational/technical school					
Tuition cost for vocational/technical/junior college					
Estimate tuition vocational/technical include fee					
Saving money to pay for child's education					
Talked about financial aid with someone					
Heard of Lifetime Learning tax credit					
Heard of Hope Scholarship tax credit					
Have/will use Lifetime Learning tax credit					
Have/will use Hope Scholarship tax credit					
Talked w/counselor about academic req college					
Reason child not attending after high school					
Family Involvement Outside of School					
Times read to child in the past week	√	√	√		√
Minutes read to child past week					
Past week told child story	√	√	√		√
Times told child story past week	√	√	√		√
Past week taught letters/words/numbers	√		√		√
Times taught letters/words/numbers past week	√		√		√
Past week taught child songs/music	√		√		√
Times taught songs past week	√		√		√
Past week worked on arts/crafts	√		√		√
Times did arts/crafts past week	√		√		√
Took child on errands past week	√		√		
Times took on errands past week	√		√		
Involved child with chores past week	√		√		
Times involved child with chores past week	√		√		
Visited library with child past month	√	√	√		
Went to play/concert/show past month	√		√		
Visited art gallery/museum past month	√		√		
Visited zoo/aquarium past month	√		√		
Told child family history past month	√		√		
Went to community event past month	√		√

Home school- other family reasons	HSFAMLY	PC6	HSFAMLY	PB9		
Home school- transportation/distance/convenience	HSTRAN	PC6	HSTRAN	PB9		
Home school- other reasons	HSOTHER	PC6	HSOTHER	PB9		
Public school support- offer detailed curriculum	HSCURR	PC7a				
Public school support- offer book materials	HSMATLS	PC7b				
Public school support- offer place with info for parents	HSPAPLC	PC7c				
Public school support- web site for home sch parents	HSPAWEB	PC7d				
Public school support- place home school kids meet	HSSTPLC	PC7e				
Public school support- web site for home sch students	HSSTWEB	PC7f				
Public school support- chance child participate sports	HSACTVS	PC7g				
Used public school support curricula	HSCURRU	PC7OVa				
Used public school support books or materials	HSMATLSU	PC7OVb				
Used public school support place for parents	HSPAPLCU	PC7OVc				
Used public school support web site for parents	HSPAWEBU	PC7OVd				
Used public school support place for students	HSSTPLCU	PC7OVe				
Used public school support web site for students	HSSTWEBU	PC7OVf				
Used public school support participation in sports	HSACTVSU	PC7OVg				
Public school offers child chance attend certain class	HSATTND	PC8				
Any of child's home instruction by public school teacher	HSTECHR	PC9				

Table E-2.—NHES:1999 Parent Interview Cross-Reference with Previous Survey Items 1995/1996—Continued

1999 Variable Description	1999		1996 Parent/Family Civic Involvement		1995 Early Childhood Program Participation	
	Variable	Question	Variable	Question	Variable	Question
School Characteristics						
Child attends public or private school	SPUBLIC	PD1	PUBSCH1-16/SPUBLIC	SX11/PD1	KPPUBL+PPUBL	B6+C2
School assigned or chosen	SCHOICE	PD2	SCHOICE	PD3	KPCHOICE+PCHOICE	B7+C3
School in assigned school district	SDISRCT	PD3				
Child attends church-related school	SRELGON	PD4	SRELGON	PD4	KPRELGON+PRELGON	B8+C4
Child attends Catholic school	SCATHLIC	PD5	SCATHLIC	PD5	KPRELTYP+PRELTYP	B9+C5
Lowest grade taught at child's school	SLOW	PD6	SLOW	PD7		
Highest grade taught at child's school	SHIGH	PD7	SHIGH	PD8		
Number of students at child's school	SNUMSTUD	PD8	SNUMSTUD	PD9		
Number of students in child's grade	SNUMGRAD	PD8OV	SNUMGRAD	PD9OV		
Child 1 goes to same school as Child 2	SSAME	PD9	SSAME	PD12		
Emerging Literacy and Numeracy						
Child identifies colors red, yellow, blue, green	DPCOLOR	PE1				
Child recognizes letters	DPLETTER	PE2				
How high child counts	DPCOUNT	PE3				
Child writes his or her first name	DPNAME	PE4				
Child reads story books	HASTORY	PE5			HASTORY	L3
Child actually reads the words	HAWORDS	PE6				
Child ever looks at story book and pretends to read	HAPRETND	PE7				
When pretend to read, sounds like connected story	HACONECT	PE8				
Early Childhood Care and Programs						
Receives care from a relative	RCNOW	PF1, PN1			RCNOW	D1
Number of other relative care arrangements	RCMORE	PF2, PN2			RCARRNEW	D4OV
Relative who cares for child	RCTYPE	PF3, PN3			RCTYPE1-4	D5
Location of relative care	RCPLACE	PF4, PN4			RCPLACE1-4	D6
Relative care schedule at least once each week	RCWEEK	PF5, PN6			RCWEEK1-4	D11
Days per week receives relative care	RCDAYS	PF6, PN7			RCDAYS1-4	D13
Hours per week receives relative care	RCHRS	PF7, PN8			RCHRS1-4	D14
Number of children cared for by relative	RCKIDS	PF9			RCKIDS1-4	D19
Number of adults giving relative care	RCADLTS	PF10			RCADLTS1-4	D20
Any fee charged by relative for child care	RCFEE	PF11, PN11			RCFEE1-4	D25
Amount household pays relative for child care	RCCOST	PF12, PN12			RCCOST1-4	D27

Table E-2.—NHES:1999 Parent Interview Cross-Reference with Previous Survey Items 1995/1996—Continued

1999 Variable Description	1999		1996 Parent/Family Civic Involvement		1995 Early Childhood Program Participation	
	Variable	Question	Variable	Question	Variable	Question
Unit of time relative care cost	RCUNIT	PF12, PN12			RCUNIT1-4	D27
Cost of relative care for child only or other children	RCCSTHH	PF13, PN13			RCSTHH1-4	D28
Number of children this amount covers	RCCSTHN	PF13OV, PN13OV			RCSTHN1-4	D28OV
Receives care from a nonrelative	NCNOW	PG1, PO1			NCNOW	E1
Number of other nonrelative care arrangements	NCMORE	PG2, PO2			NCARRNEW	E4OV
Location of nonrelative care	NCPLACE	PG3, PO3			NCPLACE1-4	E5
Nonrelative care at least once per week	NCWEEK	PG4, PO5			NCWEEK1-4	E10
Days per week receives nonrelative care	NCDAYS	PG5, PO6			NCDAYS1-4	E12
Hours per week receives nonrelative care	NCHRS	PG6, PO7			NCHRS1-4	E13
Number of children cared for by nonrelative	NCKIDS	PG8			NCKIDS1-4	E18
Number of adults giving nonrelative care	NCADLTS	PG9			NCADLTS1-4	E19
Any fee charged by nonrelative for child care	NCFEE	PG10, PO10			NCFEE1-4	E25
Amount for nonrelative care	NCCOST	PG11, PO11			NCCOST1-4	E27
Unit of time nonrelative cost	NCUNIT	PG11, PO11			NCUNIT1-4	E27
Cost of nonrelative for child only or other children	NCCSTHH	PG12, PO12			NCSTHH1-4	E28
Number of children amount covers	NCCSTHN	PG12OV, PO12OV			NCSTHN1-4	E28OV
Child attending Head Start	HSNOW	PH1	NHSNOW	PC1	HSNOW	F1
Location of Head Start program	HSPLACE	PH2			HSPLACE	F4
Head Start located at workplace	HSWORK	PH3			HSWORK	F5
Head Start regular schedule- at least once per week	HSWEEK	PH4			HSWEEK	F10
Days per week attends Head Start	HSDAYS	PH5			HSDAYS	F12
Hours per week attends Head Start	HSHRS	PH6	NHRS	PC5	HSHRS	F13
Number of children in same group at Head Start	HSKIDS	PH8			HSKIDS	F20
Number of adults in same group at Head Start	HSADLTS	PH9			HSADLTS	F21
Any fee for Head Start program	HSFEE	PH10			HSFEE	F30
Amount household pays for Head Start	HSCOST	PH11			HSCOST	F32
Unit of time for Head Start cost	HSUNIT	PH11			HSUNIT	F32
Cost for Head Start child only or include other kids	HSCSTHH	PH12			HSCOSTHH	F33
Number of children amount covers	HSCSTHN	PH12OV			HSCOSTHN	F33OV
Attends center-based program	CPNNOW	PI1	NCBNOW	PC2	CPNNOW	G1
More center-based arrangements	CPMORE	PI2, PP2	NNUMPROG	PC3	CPARRNEW	G4+G9
Program where child spends the most time	NTYPE	PI3	NTYPE	PC4		
Location/center-based program	CPPLACE	PI4, PP3			CPPLACE1-3	G10

	Variable	Question	Variable	Question	Variable	Question	Variable	Question
Demographic Characteristics								
Month of birth	CDOBMM	PA1	DOBMM	R1	DOBMM	P1	DOBMM	C1
Year of birth	CDOBYY	PA1	DOBYY	R1	DOBYY	P1	DOBYY	C1
Child's age	AGE98	PA2	AGE92	S6	AGE92	S6	AGE90	S5
Child's race	CRACE	PA3	RACE	R2	RACE	P2	RACE	S5+S10B+S11
Child's sex	SEX	S6	SEX	S6	SEX	S6	GENDER	S5
Child is Hispanic or mixed race	COTHRACE	PA3OV						
Child is of Hispanic origin	CHISPAN	PA4	HISPANIC	R3	HISPANIC	P3	HISPANIC	S5+S10C+S11
Child's birth country	CBORNUS	PA5						
Age when child moved to U.S.	CMOVEAGE	PA5OV						
Language child speaks most at home	CSPEAK	PA6						
Mother's age	MOMAGE	PA7						
Father's age	DADAGE	PA7						
Other household members' age	AGE1-AGE13	PA7						
Other household members' sex	SEX1-13	PA7					GENDER	S5
Other household members' relationship to child	RELATION	PA8	RELATN1-9	R10			PARNRELN	S7+S9
Mother's specific relationship to child	MOMTYPE	PA9	MOMTYPE	R11				
Father's specific relationship to child	DADTYPE	PA10	DADTYPE	R12				
Current School Status								
Child enrolled in school	ENROLL	PB1			ENROLL	P4	ENROLL	C4
Child schooled at home	HOMESCHL	PB2	HOMESCHL	R5	HOMESCHL	P5	HOMESCHL	C5
Child schooled at home instead of at school	HOMECON	PB3						
Child getting all or some instruction from home	HOMEALL	PB4						
Hours each week child goes to school for instruction	HOMSCHR	PB5						
Grade or year child attending	GRADE	PB6	GRADE	R6	GRADE	P6	GRADE	C6
Grade or year equivalent if child was attending	GRADEEQ	PB7	GRADEEQ	R7	GRADEEQ	P7	GRADEEQ	C7
Center Based Program Participation								
Child attended kindergarten before	ATNDKIND	PC1	ATNDKIND	R8				
Child attended home school kindergarten	HOMEKIND	PC2						
Child ever attended Head Start	HEADEVR	PC3	HEADEVR	R33			DAYCEVER	P3N
Child ever attended nursery school	PREKEVR	PC4	PREKEVR	R37			DAYCEVHS	P3P
Home school nursery, prekindergarten, preschool	HOMEPREK	PC5						
Home Schooling								
Home school- for religious reasons	HSRELIGN	PC6						
Home school- for better education	HSBETTER	PC6						
Home school- object to what schools teach	HSOBJECT	PC6						

Table E-3.—NHES:1999 Parent Interview Cross-Reference with Previous Survey Items 1991/1993—Continued

1999 Variable Description	1999		1993 School Readiness Component		1993 School Safety & Discipline Component		1991 Early Childhood Education	
	Variable	Question	Variable	Question	Variable	Question	Variable	Question
Home school- poor learning environment	HSENVIRN	PC6						
Home school- no challenge for child at school	HSCHALNG	PC6						
Home school- can't afford private school	HSPRIVAT	PC6						
Home school- couldn't get into desired school	HSDESIRE	PC6						
Home school- child has temporary illness	HSILL	PC6						
Home school- child has special need/disability	HSDISABL	PC6						
Home school- parent's career	HSCAREER	PC6						
Home school- child not old enough for grade school	HSAGE	PC6						
Home school- student behavioral problems	HSBEHAV	PC6						
Home school- to develop character/morality	HSCHAR	PC6						
Home school- problem with public/private school	HSSCPROB	PC6						
Home school- other family reasons	HSFAMLY	PC6						
Home school- transportation/distance/convenience	HSTRAN	PC6						
Home school- other reasons	HSOTHER	PC6						
Public school support- offer detailed curriculum	HSCURR	PC7a						
Public school support- offer book materials	HSMATLS	PC7b						
Public school support- offer info for parents	HSPAPLC	PC7c						
Public school support- web site for home school	HSPAWEB	PC7d						
Public school support- place kids meet	HSSTPLC	PC7e						
Public school support- web site for home sch students	HSSTWEB	PC7f						
Public school support- child participate sports	HSACTVS	PC7g						
Used public school support curricula	HSCURRU	PC7OVa						
Used public school support books or materials	HSMATLSU	PC7OVb						
Used public school support place for parents	HSPAPLCU	PC7OVc						
Used public school support web site for parents	HSPAWEBU	PC7OVd						
Used public school support place for students	HSSTPLCU	PC7OVe						
Used public school support web site for students	HSSTWEBU	PC7OVf						
Used public school support participation in sports	HSACTVSU	PC7OVg						
Public school offers child chance attend class	HSATTND	PC8						
Any of child's home instruction by public school teacher	HSTECHR	PC9						
School Characteristics								
Child attends public or private school	SPUBLIC	PD1	KPPUBL+PPUBL	R60+R71	SCPUBLIC	P10	KINDPUB(n)+SCHLPUBL	P11+E17
School assigned or chosen	SCHOICE	PD2	KPCHOICE +PCHOICE	R61+R72	SCASSIGN	P11		
School in assigned school district	SDISRCT	PD3						
Child attends church-related school	SRELGON	PD4	KPCHURCH+PCHURCH	R62+R73	SCCHURCH	P12	KINDCHU(n)+SCHLCHUR	P12+E17A
Child attends Catholic school	SCATHLIC	PD5						
Lowest grade taught at child's school	SLOW	PD6			SCLOW	P15		
Highest grade taught at child's school	SHIGH	PD7			SCHIGH	P16		
Number of students at child's school	SNUMSTUD	PD8			SCSTUD	P18		

Table E-3.—NHES:1999 Parent Interview Cross-Reference with Previous Survey Items 1991/1993—Continued

1999 Variable Description	1999		1993 School Readiness Component		1993 School Safety & Discipline Component		1991 Early Childhood Education	
	Variable	Question	Variable	Question	Variable	Question	Variable	Question
Number of students in child s grade	SNUMGRAD	PD8OV			SCSTUDGR	P18		
Child 1 goes to same school as Child 2	SSAME	PD9						
Emerging Literacy and Numeracy								
Child identifies colors red, yellow, blue, green	DPCOLOR	PE1	DPCOLOR	R14				
Child recognizes letters	DPLETTER	PE2	DPLETTER	R15				
How high child counts	DPCOUNT	PE3	DPCOUNT	R16				
Child writes his or her first name	DPNAME	PE4	DPNAME	R17				
Child reads story books	HASTORY	PE5	HASTORY	R86				
Child actually reads the words	HAWORDS	PE6	HAWORDS	R87				
Child ever looks at story book and pretends to read	HAPRETND	PE7	HAPRETND	R89				
When pretend to read, sounds like connected story	HACONECT	PE8	HACONECT	R90				
Early Childhood Care and Programs								
Receives care from a relative	RCNOW	PF1, PN1					RELCARE	P1A
Number of other relative care arrangements	RCMORE	PF2, PN2						
Relative who cares for child	RCTYPE	PF3, PN3						
Location of relative care	RCPLACE	PF4, PN4					RELHOME	P1B
Relative care schedule at least once each week	RCWEEK	PF5, PN6						
Days per week receives relative care	RCDAYS	PF6, PN7						
Hours per week receives relative care	RCHRS	PF7, PN8					RELHRS	P1C
Number of children cared for by relative	RCKIDS	PF9						
Number of adults giving relative care	RCADLTS	PF10						
Any fee charged by relative for child care	RCFEE	PF11, PN11						
Amount household pays relative for child care	RCCOST	PF12, PN12						
Unit of time relative care cost	RCUNIT	PF12, PN12						
Cost for child only or other children in your hh	RCCSTHH	PF13, PN13						
Number of children this amount covers	RCCSTHN	PF13OV, PN13OV						
Receives care from a nonrelative	NCNOW	PG1, PO1					NRELCARE	P2A
Number of other nonrelative care arrangements	NCMORE	PG2, PO2						
Location of nonrelative care	NCPLACE	PG3, PO3					NRELHOME	P2B
Nonrelative care at least once per week	NCWEEK	PG4, PO5						
Days per week receives nonrelative care	NCDAYS	PG5, PO6						
Hours per week receives nonrelative care	NCHRS	PG6, PO7					NRELHRS	P2C
Number of children cared for by nonrelative	NCKIDS	PG8						
Number of adults giving nonrelative care	NCADLTS	PG9						
Any fee charged by nonrelative for child care	NCFEE	PG10, PO10

Unit of time for Head Start cost	HSUNIT	PH11						
Cost for Head Start child only or other kids hh	HSCSTHH	PH12						
Number of children amount covers	HSCSTHN	PH12OV						
Attends center-based program	CPNNOW	PI1					DAYCARE+PREKNURS	P3A+P4A
More center-based arrangements	CPMORE	PI2, PP2					DAYCNUM+PREKNUM	P3B+P4B
Program where child spends the most time	NTYPE	PI3					PREKTPE(n)	P4TYPE
Location/center-based program	CPPLACE	PI4, PP3						
Program located at workplace	CPWORK	PI5, PP5						
Program regular schedule at least once per week	CPWEEK	PI6, PP7						
Days per week attends center-based program	CPDAYS	PI7, PP8	PREKDAYS	R45			DAYCDAY(n)+PREKDAY(n)	P3C+P4C
Hours per week attends center-based program	CPHRS	PI8, PP9	PREKHRS	R46			DAYCHRS(n)+PREKHRS(n)	P3D+P4D
Number of children in same group at program	CPKIDS	PI10	PREKID	R48			DAYCKID(n)+PREKKID(n)	P3H+P4H
Number of adults in same group at program	CPADLTS	PI11	PREKADLT	R49			DAYCADL(n)+PREKADL(n)	P3I+P4I
Fee for center program	CPFEE	PI12, PP12						
Amount for center program	CPCOST	PI13, PP13						
Unit/time program cost	CPUNIT	PI13, PP13						
Cost for child only or other children in your household	CPCSTHH	PI14, PP14						
Number of children amount covers	CPCSTHN	PI14OV, PP14OV						

Table E-3.—NHES:1999 Parent Interview Cross-Reference with Previous Survey Items 1991/1993—Continued

1999 Variable Description	1999		1993 School Readiness Component		1993 School Safety & Discipline Component		1991 Early Childhood Education	
	Variable	Question	Variable	Question	Variable	Question	Variable	Question
Training and Support for Families of Preschoolers								
Attended support group for parents	SFATTGRP	PJ1a						
Attended parenting class	SFATTCLS	PJ1b						
Gone to family support center	SFSUPCTR	PJ2a						
Had more than one home visit	SFVISITS	PJ2b						
Parent Satisfaction with School								
Parent is satisfied with school	FCSCHOOL	PK1a			FCSCHOOL	P83a		
Parent is satisfied with teachers	FCTEACHR	PK1b			FCTEACHR	P83b		
Parent is satisfied with academic standards	FCSTDS	PK1c			FCSTDS	P83c		
Parent is satisfied with order and discipline	FCORDER	PK1d			FCORDER	P83d		
Student Academic Performance and Behavior								
Child's grades across all subjects	SEGRADES	PL1						
Rating of child's school work	SEGRADEQ	PL2	PWORK	R77	CCSTATUS	P79	GRADES	E27
Teacher contacted family regarding behavior	SEBEHAVR	PL3			FCBEHAVE	P91	BEHAVIOR	E19
Teacher contacted household re school work	SESCHLWR	PL4			FCSCHLWK	P90	SCHLWORK	E20
Child has repeated a grade	SEREPEAT	PL5	RREPT	R81	CCREPEAT	P71		
Grade child repeated	SEREPTK-12	PL6	RREPT1-3/R	R82				
Child ever suspended or expelled from school	SESUSEXP	PL7			CCSUSPND+CCEXPEL	P72+P74		
Child had in school suspension	SESUSIN	PL8a						
Child was expelled from school	SEEXPEL	PL8b						
Suspension in-school or out-of-school	SEINOUT	PL9						
Family/School Involvement and School Practices								
Household adult attended general school meeting	FSMEETNG	PM1a			FCMEETNG	P89a		
Adult who attended general school meeting	FSMEETNP	PM1a2						
Household adult attended meeting with teacher	FSATCNFN	PM1b					METTEACH+TYPEMTG	E23+E24
Adult who attended teacher meeting	FSCFNP	PM1b2						
Household adult attended class event	FSSPORT	PM1c			FCSPORTS	P89b		
Adult who attended class event	FSSPORTP	PM1c2						
Household adult volunteered at school	FSVOLNTR	PM1d			FCVOLNTR	P89c		
Adult who volunteered at school	FSVOLNTP	PM1d2						
School had general meeting this school year	FSHADMEE	PM1OV						
School had teacher meeting	FSHADCN	PM1OV						
How often went to school meetings/events	FSFREQ	PM2						
School tells family how child is doing	FSSPPERF	PM3a						
School helps family understand child development	FSSPCDEV	PM3b						
School tells about chances to volunteer	FSSPVOLN	PM3c						

Table E-3.—NHES:1999 Parent Interview Cross-Reference with Previous Survey Items 1991/1993—Continued

	Variable	Question	Variable	Question	Variable	Question	Variable	Question
School advises about home learning	FSSPHOME	PM3d						
School gives info about community services	FSSPSERV	PM3e						
School puts parents on committees	FSDECIS	PM4						
Before/After School Care Activities								
Relative care before or after school	RCBFAFT	PN5						
Number of hours with relative care before school	RCHRSBF	PN9						
Number of hours with relative care after school	RCHRSAF	PN9OV						
Nonrelative care before or after school	NCBFAFT	PO4						
Hours nonrelative care received before school	NCHRSBF	PO8						
Hours of nonrelative care received after school	NCHRSAF	PO8OV						
Attends center-based program	CPSNOW	PP1						
Same place attends kindergarten or grade	CPPLACK	PP4						
Attends program before or after school	CPBFAFT	PP6						
Hours at center-based before school	CPHRSBF	PP10						
Hours at center-based after school	CPHRSAF	PP10OV						
Sometimes parents arrange for activities	ACTVTES	PQ1						
He/she participates in activities	ACTWEEK	PQ2						
Days per week child participates in activity	ACTDAYS	PQ3						
Hours per week child participates in activity	ACTHRS	PQ4						
Cares for self on a regular basis	SCSELF	PQ6						
Child cares for self before/after school	SCBFAFT	PQ7						
Child cares for self once each week	SCWEEK	PQ8						
Days per week child cares for self	SCDAYS	PQ9						
Hours per week child cares for self	SCHRS	PQ10						
Hours per week child cares for self before school	SCHRSBF	PQ11						
Hours per week child cares for self after school	SCHRSAF	PQ11OV						
Mom/dad home when child gets home from school	SCPARHM	PQ12						
Plans for Postsecondary Education								
Child will attend school after high school	SEAFTRHS	PR1a			FCPOSTHS	PY84b		
Child will graduate from a 4-year college	SECOLLEG	PR1b			FCGRADCO	PY84c		
Child will start college education in a 2- or 4-year school	PSSTART	PR2						
Child like to attend private or public school	PSCOLTYE	PR3						
Child like to attend in or out of state college	PSCOLST	PR4						
Got information about tuition for specific college	PSCOLTUI	PR5						
Cost of 1 year tuition at 4-year college	PSCOLAMT	PR6						
Tuition of 4-year include other fees	PSCOLINC	PR6OV						
Estimated 1 year tuition at 4-year college	PSCESTUI	PR7

1999 Variable Description	1999		1993 School Readiness Component		1993 School Safety & Discipline Component		1991 Early Childhood Education	
	Variable	Question	Variable	Question	Variable	Question	Variable	Question
Household Characteristics								
Own, rent home, or other arrangement	HOWNHOME	PW1	HOWNHOME	R160	HOWNHOME	P116	OWNHOME	S20
Other telephone numbers in household	HOTHNUM	PW2	HPHONE/R	R163	HPHONE/R	P118		
How many other phone numbers for home use	HNUMUSE	PW3	HPHONCNT/R	R164	HPHONCNT/R	P119		
ZIP Code	STFZIP	PW4	HZIPCODE/R	R167	HZIPCODE/R	P122		
Family received WIC past 12 months	HWIC	PW5a						
Family received food stamps past 12 months	HFOODST	PW5b						
Family received TANF or AFDC past 12 months	HAFDC	PW5c						
Total household income- range	HINCMRNG	PW6	HINCMRNG	R168	HINCMRNG	P123	INCOMRNG	S22A
Total household income- specific range	HINCOME	PW6	HINCOME	R168	HINCOME	P123		
Exact household income to nearest $1000	HINCMEXT	PW6OV						

APPENDIX F

PARENT INTERVIEW CODEBOOK

PARENT INTERVIEW CODEBOOK

This section of the manual contains the codebook for the NHES:1999 Parent Interview data file. Prior to using the codebook and data file, readers should review Chapter 6, Guide to the Data File and Codebook, and Chapter 7, Data Considerations and Anomalies. Both of these chapters provide information that will make it easier for analysts to understand the layout of the data file and the variables that have been included.

For each data element, the question, variable label, file location, format, codes, value labels, frequency, unweighted percents, and weighted percents are presented. Readers should review figure 6-1 on page 16 and the accompanying text for a detailed description of the codebook entries. As the reader will see in reviewing that section, standard formats have been used, and the same inapplicable code ("-1") is used for all variables.

The data file contains several types of variables that are useful for analytical and methodological applications. The list below indicates the types of variables, the page of the text on which a discussion of the variable type begins, and the codebook pages on which the variables can be found.

Variable set	Text discussion	Codebook pages
System variables (includes ID)	Ch. 6, p.3	F-3 to F-4
Household membership	Ch. 6, p. 5	F-4 to F-19
Questionnaire items	Ch. 6, p. 6	F-19 to F-100
Household characteristics	Ch. 6, p. 7	F-100 to F-102
Derived variables	Ch. 6, p. 7	F-102 to F-109
Weights, PSU, and STRATUM	Ch. 6, p. 14	F-109 to F-123
Imputation flags	Ch. 6, p. 14	F-123 to F-185

NOTE: Questionnaire items PA7 (age and sex) and PA8 (relationship) were asked to obtain household membership.

DIRECTIONS AND CODE FOR LINKING DATA FILES

Linking the NHES:1999 Data Files

It is possible to link information from the three NHES:1999 files. Information about the file identifiers is required to understand this process. In the NHES:1999, there are three types of identifiers. They are the **household** identification numbers (**BASEID**), interview **subject** identification numbers (**ENUMID**), and **interview** or case identification numbers (**BASMID**). In addition, two-digit **person numbers** are provided on the Parent Interview data file for the respondent to the extended interview (RESPNUM) and the mother (MOMNUM), if any, and father (DADNUM), if any, in households in which an interview was conducted about a child.

- **BASEID** is the **household** identification number. This eight-digit identification number is the same for every data record within a household. It is provided on the Parent Interview file and the Youth Interview file to permit data users to form linkages between these interviews conducted in the same household.

- **ENUMID** is the **interview subject** identification number and is composed of 10 digits. The first eight digits are the same as the household identifier, the BASEID. The additional two digits in the ENUMID qualify the subject of the interview and were determined by the enumeration order of persons in the household. For example, if the second child enumerated was sampled to be the subject of a Parent Interview, the EMUMID will end in 02. If this child was also sampled as the subject of a Youth Interview, the ENUMID on the Youth file will also end in 02. Thus, ENUMID is the same in the Parent Interview about a given youth and in that youth's own Youth Interview record. The ENUMID for an Adult Education Interview will be unique within the household.

- **BASMID** is the unique **interview** or case identification number and is composed of 12 digits. Each Parent Interview, Youth Interview, or Adult Education Interview has a unique interview ID. The first 8 digits of the BASMID are the same as BASEID for the household to which the interview belongs. The first 10 digits of BASMID are the same as the ENUMID of the subject of the interview. The last two digits of the BASMID are the sequential interview identifier and make the BASMID unique. Therefore, a Parent Interview record and a Youth Interview record about the same youth would have the same value for ENUMID, but each interview would have its own unique BASMID. For the Parent Interview, always completed first about a subject child, the last two digits are 01; for the Youth Interview, the last two digits are 02. Because sampled adults are the subject of only one interview in the household, the ENUMID for an Adult Education Interview is unique within the household, and the last two digits of the BASMID are 01. BASMID is the variable specified as the case identification number when creating a WesVar analysis from the Parent Interview, Youth Interview, or Adult Education Interview files (see volume I, chapter 3 of this manual for a discussion of variance estimation and WesVar.)

- In the Parent Interview and Youth Interview data files, four two-digit **person numbers** are provided -- MOMNUM for the child's mother (if any), DADNUM for the child's father (if any), RESPNUM, the person number of the respondent to the Parent Interview, and CHILDNUM for the subject child or youth. If the mother or

the father was the respondent to the Parent Interview, MOMNUM (or DADNUM) will have the same value as RESPNUM. In the Adult Education Interview data file, the person number for the sampled adult is the last two digits of the ENUMID. (Just as the person numbers for the sampled youth is the last two digits of ENUMID on the Parent and Youth files.)

In developing the public use data files, care was taken to include on all of the data files those person-level variables that were most likely to be needed by analysts. For example, the educational attainment of the child's parents are included on the Youth Interview file, since these parent characteristics are likely to be of interest to many analysts. In addition, since household characteristics (such as whether the home is owned or rented and household income) are likely to be used in analyses, these variables are contained on all of the NHES:1999 data sets and it is not necessary to copy them from one file to another. However, there may be circumstances in which an analyst would like to copy data items about a household member from one file to another.

Before linking, data users should consider the following tips regarding the length of time required to run a program and use of disk space:

- The data files are provided in ID order -- all of the following examples present code for sorting data files prior to linking (merging). Sorting the files can take up considerable time and disk space. If the files are already in the order required by the analyst, sorting is unnecessary.

- Keep only the variables required for your analysis -- specifying only the variables needed for the analysis will significantly improve the speed of the linking and the created data file will use less disk space. The use of a KEEP option, demonstrated in some of the following examples, can be used for this purpose.

Linking between Parent and Youth Interview files is straightforward. The common identifier (key) is the ENUMID, and is available on both files. Sample SAS code to bring together these two files follows:

```
PROC SORT DATA = parent_filename OUT= PARENT;
BY ENUMID;
RUN;

PROC SORT DATA = youth_filename OUT = YOUTH;
BY ENUMID;
RUN;

DATA TEMP;
MERGE PARENT (IN=ONPARENT) YOUTH (IN=ONYOUTH);
BY ENUMID;
RUN;
```

Sample SPSS for Windows code is:

```
GET FILE = 'youth file'.
  /KEEP = ALL.
SORT CASES BY ENUMID.
SAVE OUTFILE = 'temp'.

GET FILE = 'parent file'.
  /KEEP = ALL.
SORT CASES BY ENUMID.

MATCH FILES FILE = */FILE = temp
  /BY ENUMID
  /MAP.
SAVE OUTFILE = 'merged file'.
```

Linking between Adult Education and Parent or Youth Interview files may be of interest to analysts. The ENUMID on the Adult Education file can be used with MOMNUM, DADNUM, or RESPNUM to identify whether the subject of the Adult Education Interview was also a parent and/or the respondent to a Parent Interview. In this case, BASEID and the 2-digit person identifier contained in MOMNUM, DADNUM, or RESPNUM must be concatenated to create a new variable. This variable may be used with ENUMID from the Adult Education Interview file to merge the records. The following examples demonstrate combining Parent Interview data and Adult Education Interview data.

Sample SAS code to bring together these two files follows:

```
DATA PARENT;
SET parent_filename;
NENUMID = BASEID * 100 + RESPNUM;
RUN;

PROC SORT DATA=PARENT;
BY NENUMID;
RUN;

PROC SORT DATA = adult_file name OUT = ADULT;
BY ENUMID;
RUN;

DATA BOTH;
MERGE PARENT (IN=ONPARENT)  ADULT (IN=ONADULT KEEP=ENUMID RENAME=(ENUMID=NENUMID));
BY ENUMID;
IF ONPARENT AND ONADULT;
RUN;
```

Sample SPSS for Windows code is:

```
GET FILE='parent file' /KEEP=BASE!D RESPNUM.
COMPUTE NENUMID = BASEID * 100 + RESPNUM.
COMPUTE ONPARENT=1.
SORT CASES BY NENUMID.
SAVE OUTFILE = 'temp'.

GET FILE='adult file' /KEEP=ENUMID.
COMPUTE NENUMID = ENUMID.
COMPUTE ONADULT=1.
SORT CASES BY NENUMID.
SAVE OUTFILE = 'temp2'.

MATCH FILES FILE='temp' /TABLE='temp2' /BY NENUMID /MAP.
SELECT IF (ONPARENT=1 AND ONADULT=1).
SAVE OUTFILE = 'merged file'.
```
